Abdihakim Wehelie

Windsor, ON | 519-988-6965 | wehelie@uwindsor.ca| https://www.linkedin.com/in/abdihakimwehelie/

Self-starting front-end developer with a passion for writing clean, usable code. Recently completed Udacity training and bachelor's degree in computer science, gaining key skills in web design, application development, usability, and debugging. Strong working knowledge of HTML, CSS, JavaScript, and PHP. Eager to apply skills and continue advancing developer career in a front-end development position.

Experience

Front-end developer Intern | June 14- Sept 3
Zallat.Inc | Remote
- Worked remotely as part time intern for a grocery delivery service
- Built a web app for staff users to manage orders and supplies from the stores that work with Zallat
- Has responsive design and changes based on device screen and allows staff to upload store inventory using CSV files which will be displayed on the site.

App Developer | August 2020 - Present
Personal Projects | Remote
- Built a weather app with React that utilizes the OpenWeatherMap API to fetch the weather from various cites that the user enters (https://bit.ly/3kATXku)
- Built a currency converter app with React that uses the foreign exchange rates API to convert to and from various currencies (https://bit.ly/3kYYYDz)
- Developed various other projects using a variety of languages and tools in my GitHub(https://github.com/AbdihakimWehelie)

Patient Transporter | April 2016 - Present
Windsor Regional Hospital | Windsor, ON
- Lift and transfer up to 10 patients per hour using hospital-approved practices
- Implement patient safety equipment, including lift swings, stand-up lifts, and overhead lifts
- Support 50+ nurses, physicians, and other medical staff with delivering items to patients such as possessions and prescriptions.

Lab Assistant | May 2015 - July 2015
University of Windsor | Windsor, ON
- Sanitized 10+ pieces of glassware per shift
- Accurately calibrated and adjusted malfunctioning equipment
- Enabled precise test results for 3 experiments related to water composition in regard to the any oxides residing in various fresh water samples
